

Outdoors WA and the Australian Camps Association
invite you to participate in an

Online forum

The Process for Developing the Australian Challenge Ropes Course and Flying Fox Standards.

Date: Thursday 1st October 2015

Time: 12.00pm-2.30pm

Venue: Webinar from your own computer or limited numbers at Department of Sport and Recreation in Leederville.

Background to the standards development:

Standards Australia and an industry committee have been working through the adoption (with variations) of the European Challenge course standards EN 15567.1 and EN 15567.2 for the last 2 years.

The Steering Group has finalised the review of the current European standards and developed appendices to attach for the Australian context.

This workshop will discuss current progress for the project, explain how the Standard has been arrived at and help you to input your comments. The process is now at the Public Comment state (9 weeks) closing on the 8 October.

Who should participate?

Those who should consider attending this session include ropes course manufacturers and builders, outdoor peak industry bodies, equipment suppliers and rope course owners, operators and facilitators.

The meeting will be chaired by David Petherick, CEO ACA and David Strickland, Camps and Outdoor Sector Development, Sport and Recreation Victoria.

Pre-reading

Please also find attached a document containing FAQs for your information and on ways to provide direct feedback online to Standards Australia.

Confirm your attendance

RSVPs are essential as there is a limit on the numbers who can attend at the venue. Please indicate in your RSVP whether you propose attending the venue or joining via webinar. Details for joining the webinar will be sent to those who RSVP closer to the date.

RSVP by C.O.B on Tuesday 29th September so that we can advise the ACA in Melbourne how many people will be logging into the webinar.

Please RSVP online via this trybooking link <http://www.trybooking.com/JEYA>
